OLIVIER DRIEUX

FULL-STACK DEVELOPER | TECH LEAD EXPERIENCE

Agen · olivierdrieux.pro@gmail.com

linkedin.com/in/olivier-drieux · github.com/olivier-drieux

PROFILE

Experienced full-stack developer involved from technical design through to production deployment. As a former Tech Lead, I combine hands-on development, architectural decisions and technical guidance. Curious and adaptable, I quickly get up to speed with new environments.

SKILLS

Development · React, TypeScript, PHP, Symfony, Node.js, SQL

Personal projects · AdonisJS, Inertia.js and React

Quality and collaboration · Architecture, testing, code review, Docker, CI/CD, Agile

Applied AI · Codex and Claude Code: design, development, testing and documentation

PROFESSIONAL EXPERIENCE

TECH LEAD | LINKWEB, AGEN — JAN. 2025 — OCT. 2026

Technical decisions, feature development and maintenance of internal applications. Modular Symfony architecture, continuous integration and testing.

Structured use of AI: project guidelines, task breakdown, review and testing. Sharing practices and supporting the team.

FULL-STACK DEVELOPER | LINKWEB, AGEN — SEPT. 2021 — DEC. 2024

Designed, developed and maintained internal applications using React, TypeScript and Symfony. Apprenticeship until August 2023, followed by permanent employment.

J2EE DEVELOPER INTERN | ONEPOINT — FEB. 2021 — JUL. 2021

Back-end development and maintenance of a Java API.

WEB DEVELOPER | BATTLESQUAD — MAY 2019 — JAN. 2021

Developed an e-sports tournament management platform using PHP, JavaScript and MySQL.

BI & APPLICATION MAINTENANCE ANALYST DEVELOPER | CGI — JUL. 2016 — JUL. 2018

Requirements analysis and development in an Agile environment.
